Dear SGRM Members,

We are pleased to inform you about the next virtual SWICE Workshop, which will take place on the 19th of September 2023.

With the topic “electronic witnessing” we want to acknowledge the current changes in our society. Johan Sterckx will present his recent paper on electronic witnessing: insights and considerations after 10 years of use in Brussel IVF. Manuel Fischer will share his experience of the system at UniBasel CH. After both presentations, round tables will take place, where we can share our experiences and best practices.

The participation will be free of charge and also non SWICE members will be welcome – please feel free to inform all your colleagues.

To participate, please register via the link at the bottom.

We are looking forward to your participation!

On behalf of the SWICE board
